

Silsoft™ ETS fluid

Product Description

Silsoft ETS fluid is a highly volatile solvent and emollient that provides an outstanding sensory experience. It spreads easily and rapidly and feels dry and light upon application.

Its structure is a linear ethyl trisiloxane (1,1,1,3,5,5,5- heptamethyl-3-ethyltrisiloxane) of low molecular weight that provides a high volatility profile and acts as a vaporizable carrier. It is easy to incorporate into personal care formulations at low processing temperatures.

Product Safety, Handling, and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment, if necessary, emergency service contact information, and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the MyMomentive™ Order Management Site. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information provided by the manufacturer of such other materials.
