LIQUID SILICONE RUBBER (LSR): SHAPING THE FUTURE

MAKING THE GRADES THAT ENABLE INNOVATION

Technologies, our LSRs enhance sealing, bonding and dirt protection, our LSRs retardancy, and moisture and sterilization standards, our LSRs enable the production of countless applications. They’re easy to process, offer very fast cure times and demold with ease – so manufacturing is efficient and productive.

BRINGING ANY APPLICATION TO LIFE

Strong enough to insulate high-voltage wires, yet sensitive enough for wound drains, our LSRs support a wide variety of applications under the diverse needs of numerous major industries that support and improve everyday life.
