

# Indusil™ 2780 Fluid

## Description

Indusil™ 2780 Fluid is a highly concentrated water based emulsion of a high viscosity silicone polymer that can be used in a variety of surface coating applications.

## Product Features

Excellent stability  
Outstanding slip characteristics  
Anti-mar properties  
Anti-blocking  
Easy to handle and process, due to viscosity profile

## Applications

Water based coatings

**Usage level** - 0.1% w/w to 10% w/w depending on the formulation type, e/g/ solvent, solids content and resin type in the end use formulation.

## Toxicity and Handling

Indusil 2780 is non-hazardous. Spillages can be washed away with large amounts of water or soaked up with absorbent material. See our material safety data sheet for more information.

## Storage and Shelf Life

This product should be stored below 32°C and not allowed to freeze. Shelf life of the unopened container is 12 months from date of manufacture. If you wish to use the product after this time please contact us for approval.

## Storage and Shelf Life

This product should be stored below 32°C and not allowed to freeze. Shelf life of the unopened container is 12 months from date of manufacture. If you wish to use the product after this time please contact us for approval.

## Typical Properties

Appearance	White, flowable liquid
Specific Gravity (25°C)	1
Active content	60%

## Technical Service

Our technical and sales staff have considerable experience of the use of silicone products in a very wide variety of industries and the benefit of this experience is freely available to all our customers.
