

CoatOSil™ 7001LC Silicone-Polyether Block Copolymer

Product Description

CoatOSil 7001LC silicone-polyether block copolymer is an environmentally friendly product with low cyclic siloxane content (below 0.1%). This additive can be used as wetting or flow and levelling agent in both solvent borne and waterborne coatings. It also enhances surface slip and improves block resistance.

Key Features and Typical Benefits

- Highly compatible
- Eliminates craters, orange peel, pin holes and fisheyes defects
- Aids wetting, flow and levelling characteristics of coatings
- Improves surface slip
- Improves block resistance

Typical Physical Properties

Property	Value
Density (g/cm ³) at 25 °C	1.03
Viscosity at 25 °C, cPoise	~2000
Flash Point, Pensky-Martens (closed cup) ASTM D93 °C (°F)	97
Liquid Static Surface Tensions at 25 °C (dyne/cm)	27.8

Typical properties are average data and are not to be used as or to develop specifications.

Potential Applications

Water based and solvent based coatings for:

- Industrial coating
- Architectural coatings
- Automotive coatings
- Refinishes coatings
- Marine Coatings

General Considerations for Use

An initial starting point for incorporating CoatOSil 7001LC silicone-polyether block copolymer should be 0.5 weight percentage based on total formulation.

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute the permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Product Safety, Handling and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment if necessary, emergency service contact information, and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the Order Center. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information provided by the manufacturer of such other materials.

Limitations

Customers must evaluate Momentive Performance Materials products and make their own determination as to fitness of use in their particular applications.
