

FSE 7340

FSE 7340

Description

FSE 7340 is a fluorosilicone rubber, designed for calendaring and moulding for a variety of solvent resistant applications. These products may be used with different peroxides and fillers to develop wide-ranging property profiles. This high tear resistant material is successfully used in a variety of automotive and aerospace applications, where a combination of excellent fluid-resistance with good overall mechanical properties, low-temperature performance and high tear resistance is required.

Key Features and Benefits

- Excellent handling
- Blendable
- Easy pigmentable
- Broad fluid resistance
- High tear resistance
- Low temperature flexibility
- Suitable for high temperature applications
- Constant physical properties over wide temperature range

Typical Physical Properties

Typical Properties of the Uncured Base Compound:			
Appearance			Pale yellow
Density	DIN 53 479 A	g/cm ³	1.43
Typical Properties of the Vulcanized Rubber:			

100 phr FSE 7340 with 1.5 phr 2,5 Dimethyl-2,5 Di(t-butyl peroxy)Hexane (50%)
 Vulcanization conditions: 15 min. @ 177°C post cured: 4h @ 204°C in hot air

Hardness	DIN 53 505*	Shore A	42
Tensile strength	DIN 53 504 S2*	N/mm ²	11.2
Elongation at break	DIN 53 504 S2*	%	500
Tear strength	ASTM D 624 die B	N/mm	42
Compression set (22 h @ 177°C)	DIN 53 517*	%	8

*The quoted test methods are corresponding to ASTM standards.

Processing Recommendations

Various organic peroxides will vulcanize **FSE 7340** fluorosilicone compounds. Fabricators should make their selection of curing agents on the basis of method of fabrication, desired properties, and safety considerations. They are mixed into the rubber, if necessary together with **Silopren® HV Additives**. The optimum cure cycle will depend on the method of processing used and the physical dimensions of the vulcanized product. Specific applications will require the use of air oven post cures.

Packaging

FSE 7340 is available in 22,7 kg and 454 kg boxes.

Patent Status

本書のいかなる内容も、関連特許が存在しないことを暗示したものではありません。またいかなる特許についても、その権利者による許可なしに、その特許が対象とする発明を実施するための許可、誘因または推奨を構成することはできません。

Product Safety, Handling and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment if necessary, emergency service contact information, and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the Order Center. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information

provided by the manufacturer of such other materials.

Limitations

Customers must evaluate Momentive Performance Materials products and make their own determination as to fitness of use in their particular applications.
